

SET-2

### LEVEL 1: ABSTRACTION

// FILL 1

\_\_\_\_\_ class HiddenArea {

// FILL 2

\_\_\_\_\_ void clue();  
}

class StudyRoom extends HiddenArea {

String msg =

"Silent place where minds grow,\n" +

"Books whisper knowledge row by row.";

// FILL 3

@\_\_\_\_\_

// FILL 4

public \_\_\_\_\_ clue() {

System.out.println("LEVEL 1 UNLOCKED");

// FILL 5

System.out.\_\_\_\_\_(msg);

System.out.println("Key Letter: A");

}

}

public class Main {

public static void main(String[] args) {

// FILL 6

HiddenArea obj = new \_\_\_\_\_();

// FILL 7

obj.\_\_\_\_\_(  
}

}

## LEVEL 1 UNLOCKED

Silent place where minds grow,

Books whisper knowledge row by row.

Key Letter: A

## LEVEL 2: ENCAPSULATION

```
class SecretCode {
```

```
    private String place;
```

```
    // FILL 1
```

```
    public void _____(String place) {
```

```
        this.place = place;
```

```
    }
```

```
    // FILL 2
```

```
    public String _____() {
```

```
        return place;
```

```
    }
```

```
}
```

```
// NOTE: Changed to Main for online compiler public class Main {
```

```
    public static void main(String[] args) {
```

```
        SecretCode obj = new SecretCode();
```

```
        int[] data = {67,65,78,84,69,69,78};
```

```
        String result = "";
```

```
        for(int i = 0; i < data.length; i++) {
```

```
            result += (char)data[i];
```

```
        }
```

```

// FILL 3

obj._____(result);

System.out.println("LEVEL 2 UNLOCKED");

// FILL 4

System.out.println("CLUE: " + obj._____( ));

System.out.println("Key Letter: B");

}

}

```

LEVEL 2 UNLOCKED  
 CLUE: CANTEEN  
 Key Letter: B

### LEVEL 3: INHERITANCE

```

class Location {

String hint = "GO TO: ";

}

// FILL 1

class FinalSpot _____ Location {

String area = "MAIN AUDITORIUM";

void show() {

    System.out.println("LEVEL 3 UNLOCKED");

    System.out.println(hint + " " + area);

    System.out.println("Key Letter: C");

}
}

```

```

}

// NOTE: Changed to Main for online compiler public class Main {

public static void main(String[] args) {

    // FILL 2

    FinalSpot obj = new _____();

    obj.show();

}

}

```

LEVEL 3 UNLOCKED

GO TO: MAIN AUDITORIUM

Key Letter: C

#### **LEVEL 4: POLYMORPHISM**

```

class Base {

void display() {

    System.out.println("Wrong path...");

}

}

class CorrectPath extends Base {

// FILL 1

@_____

// FILL 2

_____ display() {

```

```

    System.out.println("LEVEL 4 UNLOCKED");

    System.out.println("FINAL SPOT: PLACEMENT CELL");

    System.out.println("Key Letter: D");

}

}

// NOTE: Changed to Main for online compiler public class Main {

public static void main(String[] args) {

    // FILL 3

    Base obj = new _____();

    obj.display();

}

}

```

LEVEL 4 UNLOCKED

FINAL SPOT: PLACEMENT CELL

Key Letter: D

$A + B + C + D \rightarrow ABCD$

## LEVEL 1 — ABSTRACTION (SET 2 ANSWERS)

### Fill Answers

FILL 1 → abstract  
 FILL 2 → abstract  
 FILL 3 → Override  
 FILL 4 → void  
 FILL 5 → println  
 FILL 6 → StudyRoom  
 FILL 7 → clue

## **LEVEL 2 — ENCAPSULATION (SET 2 ANSWERS)**

### **Fill Answers**

FILL 1 → setPlace  
FILL 2 → getPlace  
FILL 3 → setPlace  
FILL 4 → getPlace

## **LEVEL 3 — INHERITANCE (SET 2 ANSWERS)**

### **Fill Answers**

FILL 1 → extends  
FILL 2 → FinalSpot

## **LEVEL 4 — POLYMORPHISM (SET 2 ANSWERS)**

### **Fill Answers**

FILL 1 → Override  
FILL 2 → void  
FILL 3 → CorrectPath

## **SET-3**

## **LEVEL 1 — ABSTRACTION (LIBRARY)**

// LEVEL 1

// FILL 1 \_\_\_\_\_ class Zone {

// FILL 2  
\_\_\_\_\_ String getPlace();

}

class QuietZone extends Zone {

// FILL 3

@\_\_\_\_\_

// FILL 4

```
public _____ getPlace() {  
    return "Silence speaks louder than words,\nBooks guide without sound.";  
}
```

}

// NOTE: Changed to Main for online compiler public class Main {

```
public static void main(String[] args) {
```

// FILL 5

```
Zone obj = new _____();
```

```
System.out.println("LEVEL 1 UNLOCKED");
```

// FILL 6

```
System.out.println(obj._____());
```

```
System.out.println("Location: LIBRARY");
```

```
System.out.println("Key Letter: N");
```

}

}

LEVEL 1 UNLOCKED

Silence speaks louder than words,

Books guide without sound.

Location: LIBRARY

Key Letter: N

## LEVEL 2 — ENCAPSULATION

// LEVEL 2 class CodeBox {

```
private String place;
```

// FILL 1

```
public void _____(String place) {  
    this.place = place;  
}
```

```
// FILL 2
public String _____() {
    return place;
}

}

// NOTE: Changed to Main for online compiler public class Main {

public static void main(String[] args) {

    CodeBox obj = new CodeBox();

    String text = "";
    String encoded = "COMPUTER";

    for(int i = 0; i < encoded.length(); i++) {
        text += encoded.charAt(i);
    }

    // FILL 3
    obj._____ (text + " LAB");

    System.out.println("LEVEL 2 UNLOCKED");

    // FILL 4
    System.out.println("CLUE: " + obj._____());

    System.out.println("Key Letter: E");

}

}

LEVEL 2 UNLOCKED
CLUE: COMPUTER LAB
Key Letter: E
```

### **LEVEL 3 — INHERITANCE**

```
// LEVEL 3 class Base { String msg = "NEXT STOP: "; }

// FILL 1 class FoodSpot _____ Base {
```

```

void show() {
    System.out.println("LEVEL 3 UNLOCKED");
    System.out.println(msg + " CANTEEN");
    System.out.println("Key Letter: X");
}

}

// NOTE: Changed to Main for online compiler public class Main {

public static void main(String[] args) {

    // FILL 2
    FoodSpot obj = new _____();

    obj.show();
}

}

LEVEL 3 UNLOCKED
NEXT STOP: CANTEEN
Key Letter: X

```

#### **LEVEL 4 — POLYMORPHISM**

```

// LEVEL 4 class BaseClue {

void print() {
    System.out.println("Access denied...");
}

}

class FinalClue extends BaseClue {

// FILL 1
@_____

// FILL 2
_____ print() {
    System.out.println("LEVEL 4 UNLOCKED");
    System.out.println("FINAL LOCATION: SEMINAR HALL");
    System.out.println("Key Letter: U");
}

}

```

```

}

// NOTE: Changed to Main for online compiler public class Main {

public static void main(String[] args) {

    // FILL 3
    BaseClue obj = new _____();

    obj.print();
}

}

```

LEVEL 4 UNLOCKED  
 FINAL LOCATION: SEMINAR HALL  
 Key Letter: U

$N + E + X + U \rightarrow NEXU \rightarrow NEXUS$
